FLUTED PANEL

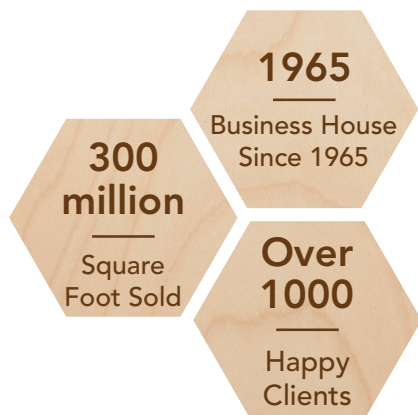

Let's know us

With experience since 2001 in the Lumber and Ply Industry, Wallgreens Panels LLP has become the one stop shop for wood based products required for Construction, Automotive and Industrial applications ranging from veneer lumber to out of the box finished products. Wallgreens made entry into the Construction Industry with Plywood but the spectrum of products that it covers today is way beyond the limits of merely Plywood.

Film-faced ply was first introduced by Wallgreens in South India. With dedicated effort and constant adherence to quality, the organization soon won the trust of diverse clientele and reached the milestone of being the numero-uno in the market.

Wallgreens has never rested on its success. Soon other types of specialized plywood material was introduced for various applications like Bus and Truck body-building transport and industrial flooring, patterns and dies, sport material and so on. Wallgreens also ventured into interior applications of Plywood for decoration and furniture making, especially floorings for Sports Courts, Dance Floors etc.

Our History

1965

Tarachand M Chowatia migrates from a small village in Rajasthan to Ahmedabad, Gujarat. The humble beginning of the business house starts from here in the bearing industry.

1991

Jignesh T Chowatia ventures into non-ferrous metals in Mumbai

2001

Jignesh T Chowatia takes a bold charge and ventures into the plywood and wood industry, shifting the entire base to Bangalore and we introduce densified Film Faced Shuttering plywood to the South Indian market

2005

Sales skyrocket whilst we claim the throne to become the largest market shareholder in the South Indian market for shuttering material

2006

We add mature Canadian pinewood, LVL, wooden flooring, doors and interior plywood to our product range

2009

We become one of the first companies to start importing birch plywood directly from Russia.

2012

We shift our base back to Mumbai.

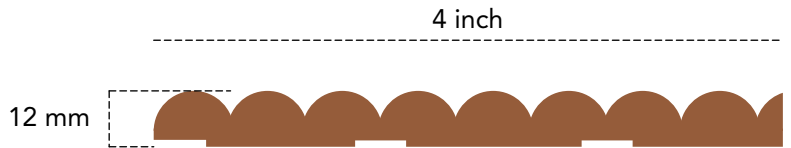

2017

We introduce StiMBER and wooden circular column Formwork that takes the construction industry by a storm

2021

We launch the revolutionary EverFinish Synchro
